

COAL FAIR - ENTRY REQUIREMENTS

1. Must be a student in a private or public school system located in one of the following counties:

Breathitt	Floyd	Harlan	Johnson
Knott	Lawrence	Leslie	Letcher
Magoffin	Martin	Perry	Pike
2. Coal must be the theme or focus of the project.
3. Students are allowed to enter one (1) category only.
4. Team participation is permitted; however, a team can consist of no more than five students: a "team captain" and four team members. If a team is the recipient of a prize, the award will go to the team captain who will be responsible for dividing it with the team members.
5. Each entrant is responsible for the delivery and set-up of his/her project; however, Coal Fair personnel will assist in setting up.
6. A project will not be accepted for registration until all components of the entry are at the gym.
7. Projects may not be altered after entry.
8. CEDAR will provide security at the Regional Coal Fair, but will not be responsible for any damage during the Fair.
9. Projects that have been entered in previous CEDAR Regional Coal Fairs will not be accepted.
10. If a project is disqualified from judging because it does not meet the guidelines of the category in which it is entered, it can be entered for judging in a subsequent year's Coal Fair as long as it is in compliance with the category guidelines in existence at the time.

COAL FAIR – ENTRY OPTIONS

CEDAR encourages all students to familiarize themselves with the Governor's Energy Plan, also known as **INTELLIGENT ENERGY CHOICES FOR KENTUCKY'S FUTURE – KENTUCKY'S (7) POINT STRATEGY FOR ENERGY INDEPENDENCE**. The complete plan, along with an executive summary can be accessed at www.energy.ky.gov/kvenergyplan2008/.

More specifically, CEDAR encourages each student to explore ways to create a project while addressing and making a connection to one or more of the following four coal-related strategies of the Governor's Energy Plan:

Strategy 1: Improving the Energy Efficiency of Kentucky's Transportation Fleet

Strategy 4: Development of a Coal-to-Liquids Industry in Kentucky to Replace Petroleum-Based Liquids

Strategy 5: Implementation of a Major and Comprehensive Effort to Increase Coal-to-Gas in Kentucky

Strategy 6: Initiation of an Aggressive Carbon Capture/Sequestration Project for Coal-Generated Electricity in Kentucky

NOTE: Projects addressing one or more of these strategies will be made available to the Kentucky Department of Energy for consideration in their promotion of the Governor's Energy Plan.

CEDAR reserves the right to disqualify from judging and remove from display any project that in its opinion has been created, developed, or presented in a manner NOT consistent with its goal, which is, "To enable our citizens to form a knowledgeable and unbiased opinion of the Coal Industry."
